Rubric for Functional Test Case Documentation

October 30, 2025

Introduction

This rubric is designed to evaluate the Functional Test Case Descriptions assignment, which requires teams to develop a comprehensive functional testing document. After introductory material (descriptions of the product to be tested and the testing environment, a record of changes, special considerations, etc.), the bulk of the document should consist of functional test case descriptions based on requirements in your SRS. Evaluation will focus on the completeness of test coverage, clarity and detail, document organization, and overall professional presentation, using consistent standards for grading.

Criteria Descriptions

Completeness of Test Cases (40 points)
Examines the extent to which all significant functional requirements in the SRS are represented by accurate, detailed, and actionable test cases. Strong submissions map each case clearly to requirements and provide steps that are replicable and traceable.

Organization & Structure (20 points)
Assesses the arrangement and labeling of document sections, logical ordering of content (including the introductory material), use of formatting, and ease of navigation.

Clarity & Level of Detail (30 points)
Measures how clearly test cases and introductory content are written, the presence of all expected test fields (inputs, actions, expected outcomes), and avoidance of ambiguity or mistakes. Also evaluates the visual quality and consistency of formatting, use of tables or test case templates, and the overall impression of polish and professionalism.

Introductory Material & Context (10 points)
Reviews whether all required introductory sections (descriptions of the product to be tested and the testing environment, a record of changes, special considerations, etc.) are included and clearly articulated, providing complete context for the test cases.

Grading Table

Criteria	**Excellent** (90–100)	**Good** (80–89)	**Satisfactory** (70–79)	**Needs Impr.** (60–69)	**Poor** (Below 60)	**Pts**
Completeness of Test Cases	All requirements fully covered with precise, actionable, and traceable test cases; nothing missing.	Most requirements addressed; minor details missing; generally comprehensive.	Most core requirements addressed, but moderate gaps or weak traceability.	Several key requirements missing; document incomplete or test cases vague.	Few or no requirements mapped; test cases minimal, vague, or erroneous.	40
Organization & Structure	Thorough sections, clear labeling, professional formatting; easy to navigate.	Mostly organized, minor lapses.	Some organization, but sections missing or incomplete.	Disorganized; poor navigation or inconsistent arrangement.	Minimal no structure; confusing or incomplete.	20
Clarity & Level of Detail	Consistently clear, specific, unambiguous, detailed; all info present. Highly professional; consistent language format; tables clear readable.	Clear; minor missing details, mostly understandable. Professional appearance, minor lapses inconsistencies.	Several cases lack detail or clarity; some ambiguity. Some professional qualities, inconsistent style.	Vague or partially written; many details omitted; ambiguous. Unprofessional, sloppy, inconsistent.	Ambiguous or missing critical info. Rushed, unreadable, unprofessional.	30
Intro Material & Context	Complete, well-written intro, product summary, testing environment, record of changes, special considerations.	Most intro sections present, minor details missing unclear.	Basic intro present, major sections lacking details context.	Minimal intro material; context missing.	No insufficient intro material.	10

Criteria, Total Points, and Grading Levels

Criteria	**Total Points**	**Grading Levels (point ranges)**
Completeness of Test Cases	40	Excellent (36–40), Good (32–35), Satisfactory (28–31), Needs Improvement (24–27), Poor ($\leq$23)
Organization & Structure	20	Excellent (18–20), Good (16–17), Satisfactory (14–15), Needs Improvement (12–13), Poor ($\leq$12)
Clarity & Level of Detail	30	Excellent (27–30), Good (23–26), Satisfactory (19–22), Needs Improvement (15–18), Poor ($\leq$14)
Intro Material & Context	10	Excellent (9–10), Good (8), Satisfactory (7), Needs Improvement (6), Poor ($\leq$5)
